Border to Coast Overseas Developed Markets Equity Fund	Nike, Inc.	06/10/2021	Advisory Vote on Executive Compensation	For	Against	Against Management	Despite some positive changes in reponse to significant dissent last year we still have some concerns. First, the one-time 10mil transition awards granted to both CEO and executive Chair vested in full. Secondly, the company chose to have both half year periods and target ranges for its STI in FY2021which might not have set sufficiently challenging targets for executives (they paid out at 120%). The company continues to rely heavily on options and RSUs (54% of overall pay) both of which vest annually over a 3 and 4 year period respectively.	Annual

Border to Coast Overseas Developed Markets Equity Fund	Nike, Inc.	06/10/2021	Shareholder Proposal Regarding Human Rights Impact Assessment	Against	For	Against Management	We spoke with Nike on this and asked how effective Nike's due diligence with its suppliers in China is considering the constrains to access reliable information on the ground. They referred to their disclosures but did not comment on China directly. We also specifically asked what Nike's current level of traceability of cotton as a raw material is, and if they found any forced labor issues related to their cotton sourcing activities. Nike replied they do not directly source cotton. They work with suppliers, industry associations, brands, trying to pilot their approaches, making sure raw materials and products are responsibly produced. Given Nikes reply we believe the requested report would benefit Nike shareholders to get more transparency on Nike's actions	Annual

Border to Coast Overseas Developed Markets Equity Fund	Nike, Inc.	06/10/2021	Shareholder Proposal Regarding Median Gender and Racial Pay Equity Report	Against	For	Against Management	Although we see the concerns GL and Nike bring that comparing median pay levels without adjusting for experience and role etc might give skewed view. However, we believe that this number in combination with the current disclosures Nike already provides could give clear insight in Nikes success in ensuring equal opportunity for growth, as a strong difference between median pay between different groups might reveal a lack of equal upwards opportunity. Nike claims to focus “on increasing representation of women globally and racial and ethnic minorities in the U.S. at all levels of the Company, including at the most senior levels, and ensuring that all employees are compensated fairly and equitably” so this should align with their own goals. Border to Coast Overseas Developed Markets Equity Fund	Fortescue Metals Group Ltd	09/11/2021	Shareholder Proposal Regarding Facilitating Nonbinding Proposals	Against	For	Against Management	Shareholders should be afforded the right to submit and vote on nonbinding shareholder resolutions we believe the SHIP is supportable because in the Australian context, implementing Free Prior Informed Consent (FPIC) is complex and has been limited under domestic legislation. The proposed reform of the heritage bill does not address the key issues that undermine the implementation of FPIC. This means that companies can act in compliance with state and federal law, though their actions contravene international standards. By publicly advocating the revision of the proposed bill and the further incorporation of Indigenous communities in the consultation phase, Fortescue can lead the way on how companies should take their obligations under business and human rights frameworks much more seriously.
