

STERLING INVESTMENT GRADE CREDIT FUND

Investment Objective

The fund aims to provide a total return (income and capital) in excess of the iBoxx-Sterling Non-Gilts Index plus 0.6% per annum over rolling 5-year periods (after fees and expenses, including the calculation of the ACS Manager's Annual Management Charge).

Investment Policy

The Fund invests primarily in GBP-denominated debt of investment grade companies which are included in the Index. Due to the global nature of the companies which make up the Index, there may be an exposure to countries other than the UK through those companies' operations. Fund management may be delegated to between two and five external investment managers.
